

# Transportation Survey Dec. 2013

- 1,027 responses (349 employees, 678 guests/users)

## Shuttle:

1,200 people have need, 400 for LIRR train run at ~1:30 pm

Nearly 700 persons need transport to LIRR in afternoon

Substantial need for runs between 4 pm – 7 pm

Higher usage demand for January – August

20 persons indicated need between 11 pm – 1 am

Many comments that shuttle ends too early (4 pm) to be useful

Suggested regular route with regular stops

80% would not pay for on-site service

70% willing to pay up to \$15/ride to LIRR station

# Transportation Survey Dec. 2013

## Bicycles:

1,600 people would use/need bikes

BNL's Borrow a Bike program has fleet of ~200 now

>50% would not pay for; 35% would pay  $\leq$ \$2

Comment: Transform the site into a true ... green campus where people could easily commute by bike.

## Public Transportation:

>1,000 people have need, mostly employees and local students

Comment: public transportation at BNL inadequate for the lab's function as an international research center
