NUFO report:

NUFO meeting April 21-23 at Oak Ridge, Registration now open.

Notes from NUFO meeting 26-Feb-2015:

- Name change is still in the works... NUFO → ARIA ... still checking if this is OK
 - American Research Infrastructure Alliance
- NUFO exhibition news is not so clear. Likely will join DOE National Lab Day
- DOE has 4 National Lab days planned:
 - June 2015 Energy Sciences --- have not received the go ahead
 - 2016 Discovery Sciences (NUFO)
 - 2017 Biosciences
 - 2018 Data Sciences
- NUFO should still plan for exhibition in June in case the DOE Lab day is a no go, may push to September
- For National Lab day, we would still need the exhibits
- Conversation then shifted to funding cuts in BER and BES which I could not follow
