- 90 Staffer appointments arranged
 - with 2-8 delegates in each
- 300-400 Delegate appointments
 - only a handful of mistakes

Follow-up Phone Conference

Friday April 7th, 2015

Attending: Aubrey DeVillez (Batelle), Sarah Chilton (Bose), Daniel Cebra (RHIC), Brad Sherrill (FRIB), Deborah Dowd (Jlab)

- Areas for Improvement and follow-ups:
- We did not have all the JLab home addresses → Deborah had most of these
- We did not have day of contact numbers for the delegate → Will request cell phone numbers next year
- The one pagers should have more pictures of people; the RHIC one should use both sides
- Having the packets prepared in advance was very nice
- It would be good to get the meetings done earlier → Get the participant lists in earlier (30 days)
- Google Doc → This was really nice
- Meeting sizes and mixes → Good size delegate teams; maybe even more mixing between the three labs in the delegate teams
- Some room numbers were wrong → This was my fault
- Send out a survey to the participants → Paul has done this
- Agnes should send pictures to Taylor
- We should have gone two weeks earlier → Next year pay less attention to academic schedules
- Less food at Piola

We are all looking forward to going again next year!
